TAPECOAT / ROYSTON

Providing Quality Casing Filler for 25 Years

ROYFILL HOT FILL

An exceptional blend of petrolatum wax with corrosion inhibitors (#406)

Ideal Application for:

- Multi –Casings Projects
- Larger Diameter Casings
- Larger Length Casings

Installation

- Hot Injected Royfill from heated Pump Truck
- Installation done by Royston trained personnel
- Faster fill rate with an average 28 gallons per minute
- Lower Pressure Fill - gravity flow maximum 12- 15 PSI
- No drum disposal required
- Highly cost effective on larger or multiple casings projects
